Introduction

The purpose of this directory is to provide comprehensive information about the local cancer services available to the population of Calderdale and Huddersfield. It has been produced to build on existing communication links between primary and secondary care.

Amongst the information included within this directory are contact details for key personnel in the delivery of cancer care, information on how to make a referral into the service and details about local support and information services available.

It is hoped that this will be an invaluable resource for you to use in caring for your patient.

Inevitably teams change and directory details become dated and inaccurate but to maintain what we believe to be crucial dialogue between all health professionals it will be subject to regular amendments.

1. Lead Contacts

Lead Cancer Team

The team is responsible for the effective delivery of cancer services across the Trust and in liaison with primary care. This includes the implementation of the national cancer services standards and the NHS plan (Cancer Plan 2000, Cancer Reform Strategy 2007 and Improving Outcomes a Strategy for Cancer 2011) ensuring continuous quality improvement.

Lead Clinician for Cancer
The Lead Clinician is responsible for the clinical organisation, development and delivery of cancer care across the cancer unit.

Dr Jo Dent
Tel: 01484 342154
Fax: 01484 342187
Email: jo.dent@cht.nhs.uk

Lead Nurse for Cancer
The Lead Nurse for Cancer is responsible for the effective delivery of cancer nursing, professionals allied to medicine and elements of psychosocial support service ensuring they are responsive to patient needs.

Alison Harwood
Tel: 01422 222702
Fax: 01422 222701
Email: alison.harwood@cht.nhs.uk

Lead Manager for Cancer
The Lead Manager for Cancer provides a Trust wide focus for directorate and service-specific managers. Responsibilities include the implementation of national cancer service standards and for the implementation of action plans resulting from the recent cancer services peer review process.

Angela Walton
Tel: 01422 222057
Fax: 01422 223198
Email: angela.walton@cht.nhs.uk

Matron – Oncology, Haematology & Palliative Care
Louise Taylor
Tel: 01484 355747
Fax: 01484 347099
Email: louise.taylor@cht.nhs.uk
The Primary Care Trust (PCT) Cluster has appointed a Cancer Commissioning Lead whose responsibility it is to take forward the cancer agenda within the PCT Cluster. They also work closely with the identified leads in the GP Practice Based Commissioning (PBC) Groups.

**Calderdale, Kirklees and Wakefield PCT Cluster**

**Julia Thorpe**  
Senior Commissioning Manager  
Tel: 01424 317728  
Email: julia.thorpe@wdpct.nhs.uk

Calderdale PBC Lead – Dr Hazel Carsley

Kirklees PPC Lead – Dr Bert Jindal
2. Multi-Disciplinary Teams (MDTs)

Breast Multi-Disciplinary Team

The multi-disciplinary team meet twice weekly. Monday’s MDT at the Calderdale Royal Hospital (CRH) is to discuss diagnostic cases; Friday mornings at Huddersfield Royal Infirmary (HRI) to discuss therapeutic surgery, ongoing treatment planning and metastatic patients. This enables a multi-disciplinary approach to planning the treatment and care of patients with breast cancer.

MDT Co-ordinator
Chloe Ellis
Tel: 01484 355286
Fax: 01484 355528/29
Email: chloe.ellis@cht.nhs.uk

Children’s Cancer Multi-Disciplinary Team

The team consists of health professionals from HRI and CRH with an interest in Children’s cancer and is supported by the Primary Treatment Centre (PTC) in Leeds. Care and treatment is delivered through a multi-disciplinary approach. The MDT meets on Tuesdays on a monthly basis at CRH to discuss the current children caseload – dates available from Sally Whelan.

Gynaecology Multi-Disciplinary Team

The team are responsible for the management of patients with gynaecological cancers within CHFT. A local MDT meeting takes place weekly on Wednesdays at CRH at 12:30pm in the X-Ray Seminar Room/Parent Craft Room where the management of all suspected/confirmed gynaecological cancers are discussed. All are welcome to attend or ask for radiology opinion of imaging. The team has strong working links with the Leeds Cancer Centre, meeting weekly at their multidisciplinary team meeting at St James’s University Hospital in Leeds.

MDT Patient Referrals
The preferred method of referral is by ‘MDT Referral Pro-forma’ this must be completed and sent to the MDT Co-ordinator by Monday no later than 12.00noon and any urgent Fast Track referrals Tuesday no later than 10.30am. The referral can be faxed to 01422 224690 or accepted over the telephone 01422 223448 but this must then be backed up with completed referral form from the referrer.

New Patient Referrals
The preferred method of referral is by ‘Urgent Cancer Referral Pro-forma’, faxed to Mr Choy on 01422 224690. However referral will be accepted in writing or by telephone call and then confirmed in writing.

See Link:
Haematology MDT

The haematology team consists of health professionals from CHFT. Outpatient clinic and procedural work is carried out on both sites whereas all haematology malignancy inpatients are admitted to HRI (Ward 12). All newly diagnosed haematological malignancies are referred to the regional MDT and generally treated locally.

New Patient Referrals

Patients with symptoms suspicious of lung cancer or abnormal chest X-ray should be referred urgently using ‘Urgent Cancer Referral Pro-forma’ and fax it to the appropriate Consultant Respiratory Physician, or the appointment centre on 01484 347295. Telephone referrals for urgent cases will also be accepted. Urgent referrals will be seen at the next new patient clinic.

In-patient referrals should be made by telephone to the appropriate Consultant Respiratory Physician.

Referrals from another cancer site MDT should be made on a referral form to the appropriate chest physician. The referral form is available on the Trust intranet under publications, MDT pro-formas.

All patients who require surgical assessment are referred by the MDT to Mr Nilanjan Chaudhuri at St James’s Hospital, Leeds.

All patients requiring an oncology opinion will be seen at the HRI on Tuesday by Dr Rob Turner or Dr Barbara Crosse. Radiotherapy is delivered at St James’s Hospital, Leeds. Chemotherapy is delivered at HRI unless treatment is concurrent with radiotherapy in Leeds.
Skin Cancer Multi-Disciplinary Team

The team consists of health professionals from HRI and CRH with an interest in skin cancer. Care and treatment is delivered through a multi-disciplinary approach. The MDT meets on Mondays, alternate weeks, at HRI to discuss new patient referrals – dates available from Elspeth Maughan

Chemotherapy & Haematology Services

Out-Patient Facilities

The Trust has 2 facilities for the provision of day case chemotherapy;

- **The Gartland Suite** situated in The Macmillan Unit at CRH
- **Chemotherapy Suite** based on Ward 3 at HRI

The units are open Monday to Friday 9:00am–5.00pm and are staffed by nurses who have undergone specific training in caring for patients receiving chemotherapy. Patients have open access throughout this time for advice, treatment, information or reassurance. For out of hours’ advice community teams and GPs can contact Ward 12.

Referral Procedure

These are taken for patients requiring outpatient chemotherapy, blood support and management of venous access devices and all problems relating to their chemotherapy treatment.

In-Patient Facilities

Ward 12
All in-patient oncology and haematology treatment and care is provided on Ward 12 at HRI, which is a dedicated oncology and haematology ward.

The ward has 20 beds in total. There are 12 single rooms, 8 of which have en-suite facilities (4 of which are positive pressure rooms for neutropenic patients). There are two 4 bedded bays with nearby bathroom/shower room. All are single sex.

The Team
Care for all patients on Ward 12 is planned and delivered by a multi-disciplinary approach. Patients are encouraged to play an active role in their care planning.

Dr Joffe, Dr Crosse, Dr Dent and Dr Hofman (Oncologists) have a ward round on Tuesday and Friday mornings. Dr Feyler and Dr Rothwell (Haematologists) have a ward round on Tuesday mornings and Friday mornings. A senior House Officer for all Consultants is available daily.

The nursing staff on the ward are led by the Ward Manager. There are also three junior Sisters who lead two nursing teams.

Services Available
Referral to all specialist nurses and multi-disciplinary teams including Occupational Therapy, Physiotherapy, Dietician, Social Worker. Links with and referral process to local hospices.

An information room is available for patients, relatives and staff, which has a supply of information sheets on most chemotherapy drugs; procedures and issues relating to cancer and haematological illnesses. Macmillan Cancer Support / Cancerbackup booklets are available.

Referrals
Ward 12 has a well-equipped treatment room for use during the day for routine admissions and procedures and out of hours referrals (outside of 9.00am-5.00pm).

Out of hours ward 12 has an open door policy. Patients can phone 24 hours a day/7days a week for advice or to be seen and assessed by Nurse or Doctor and for possible admission to the ward.

Patients who telephone and come in to ward 12 are triaged and the nursing staff take blood tests and observations as necessary. The patient is then seen by a Doctor as
necessary, sent home or found a bed on ward 12 or if no bed is available on the ward, elsewhere in the hospital.

**Visiting hours**
11.00am–1.00pm and 3.00pm–8.00pm. If these are not convenient the ward can allow some flexibility.

Clinical Trials

A major philosophy of the cancer unit is that we should ensure that treatments that are given are proven and are at the cutting edge of current standard treatments within the UK and elsewhere. In order to ensure that this is the case we aim to participate in appropriate clinical trials of new treatments.

These are nearly always given in the context of national trials supported by bodies such as the Medical Research Council and often allow access to new and active treatments before they are generally available through the licensing system.

Whilst participation in a clinical trial is not compulsory, and alternative standard treatments will always be offered, when possible these will be offered to suitable patients.

A number of staff are employed specifically to help with clinical trials and will be able to support any patients with information and care if they are considering participation.

Radiotherapy Services

Radiotherapy treatment involves the planning and delivery of high energy radiation treatment, to kill or shrink cancer cells, using treatment machines known as linear accelerators (linacs). Treatment is planned using an adapted CT scanner (Virtual simulator). Both these procedures are conducted by trained health care professionals called Therapy Radiographers.

Radiotherapy treatment for the region is given in Leeds radiotherapy department which is situated in St James’s Institute of Oncology (SJIO), St James’s Hospital. Radiotherapy at SJIO is mostly given daily, Monday to Friday. Please note that treatment courses can start on any day of the week.

Those visiting SJIO for treatment or other purposes will expect to see radiographers delivering radiation treatment. Patients are cared for by a multi-disciplinary team also including nurses, dieticians, physiotherapists, speech and language therapists (SALTs) and on the technical side physicists and dosimetrists. Patients are reviewed to assess treatment side effects, look at treatment images and assess the accuracy of treatment placement on a daily basis, along with training student therapy radiographers on the treatment machines.

E-mail: lisa.copeland@leedsth.nhs.uk

Louise and Lisa share the care of all radiotherapy patients with more complex needs.
Specialist Palliative Care Services

Specialist Palliative Care Services in Calderdale and Kirklees are provided by three main organisations, CHFT, Kirkwood Hospice in Huddersfield and Overgate Hospice in Elland.

The acute Trust based Specialist Palliative Care Team comprises of specialist doctors and nurses who are experienced in the complex care of patients with advanced and life-threatening illnesses. The team also includes designated medical social workers on both hospital sites. The primary role of the team is to support and advise patients and their families who have needs relating to advanced progressive illness and also to act as a specialist resource for those patients’ main health carers. In this way the team enhances and complements services already available to patients and their families, both at home and in hospital. The team gives specialist advice ensuring the continuity of care between hospital, home and hospice.

Services offered by CHFT Specialist Palliative Care Team
- Information regarding diagnosis and treatment.
- Advice regarding symptoms which are difficult to manage.
- Psychological, emotional and spiritual support to patients and their carers.
- Advice regarding benefits, grants and other social support.
- Liaison with specialist staff at Overgate and Kirkwood Hospices.
- Attendance at out-patient clinics for support and advice.
- Advisory service for hospital doctors and nurses, GPs and District Nurses, and Social Services (NB. There are no specialist palliative care in-patient beds at CHFT).
- Provision of specialist palliative care education to all grades of staff in hospital and community.
- Consultant clinic on both hospital sites.
- CHFT intranet site has a Palliative Care Directory encompassing symptom control guidelines, guidelines on the management of end-stage heart failure, guidance on the Fast Track discharge process, and a variety of other advice and information for health professionals. The site is updated regularly.

Referral Procedure
Referral to the Specialist Palliative Care Service can be made by any healthcare professional or social worker, patient or their carer. The following eligibility criteria exist across the Yorkshire and Humber Coast Cancer Network:
- The patient has active, progressive, potentially life-limiting illness.
- The patient has unresolved complex needs that cannot be met by the current caring team or is anticipated to develop such needs in the immediate future. These needs may be physical, psychological, social and/or spiritual.
- The patient will be assessed by a member of a Specialist Palliative Care Team in CHFT, Kirkwood Hospice or Overgate Hospice. The assessment may be made face to face with the patient or in urgent cases may be made over the phone and with the professional making the referral, or in the case of a patient or relative generated referral, with a key member of their caring team.

Referrals should ideally be made by completion of the relevant form (pink for CRH, green for HRI) but urgent referrals may be made by telephone. Important information will be
required, in particular the patient’s understanding of their diagnosis, their awareness that
the referral is being made, and the agreement of their GP or Consultant that the referral is
being made.

Out of Hours Specialist Palliative Care Advice
In line with NICE Guidance on Supportive and Palliative Care for Adults, specialist palliative care advice is available in all our localities 24 hours a day, 7 days a week, 365 days a year. Advice available can be categorised as follows:

- Written advice via CHFT intranet site.
- Palliative care nursing advice from hospice nursing staff.
- Complex palliative medicine advice from Consultant in Palliative Medicine via respective acute Trust switchboards or local hospices.

4. Nurse Specialists

Breast Care Nurse Specialists

Services offered
The Breast Care Nurses in CHFT work within the breast multi-disciplinary team to provide specialist–nursing advice, information and ongoing support for women and men with breast disease, malignant and benign. Services offered:

- Key Worker (Breast care nurse) for every patient.
- Maintain support, providing treatment information enabling patients to make informed choices about treatment planning.
- Co-ordination of treatment to other Trusts.
- Drop in service weekly.
- Multi-disciplinary breast care education.
- Nipple and areolar tattooing service following reconstruction.
- Family history clinics.
- Prosthetic clinics.
- Support groups.

The service is offered to women diagnosed through the national breast-screening programme and to both women and men diagnosed through the symptomatic breast clinics and the private sector.

Referral Procedure
Referrals can be made directly by telephone, letter or referral form to the relevant members of the team or calling in at the Macmillan Unit, CRH.

Colorectal/Stoma Care Nurse Specialists

The Colorectal/Stoma Care Nursing Team provides care, support and education to meet the needs of those with bowel (and some bladder) conditions. The nurses work closely with other members of the Multi-disciplinary Colorectal Team across primary, secondary and tertiary care centres.

Services Offered
- Support in ward, out-patients and community settings
- Education for patients, carers and health professionals in hospital and community settings
- Information provision to enable patients to make informed choices about their care and treatment
- Pre and post operative support for patients, carers and significant others
- Provide pre and post operative care for patients who require a stoma
- Provide patients with a link to other members of the Colorectal Team and other professionals

Eligibility Criteria
Direct referrals are accepted for:
- Any patient who has a colorectal condition
- Patients who require stoma siting prior to surgery or advice following stoma formation

Referral Procedure
Referrals can be made directly by telephone, letter or referral form to the relevant members of the team.

Gynaecology Oncology Specialist Nurse

The Gynaecology Oncology CNS or the service support staff nurse are available to visit wards or outpatient clinics at both hospitals within the Trust, and is also available for patients and relatives as support when they are given a diagnosis of a gynaecological cancer.

The Gynaecology Oncology CNS is also available as a resource for staff and colleagues who may need advice, information and support whilst caring for a patient with a gynaecology cancer.

Based in the Macmillan Unit at CRH, but providing a service across the Trust.

Services offered

- Comprehensive information for patients and carers
- A support/advisory service throughout the illness trajectory
- Co-ordination of referrals to other services both locally and at the Cancer Centre in Leeds
- Support in out-patient clinics
- Support of patients and their relatives following a suspected or actual diagnosis
- Provision of clinical supervision and staff support when needed
- Participation in health education programmes
- Chair of the local Support Group – Daylight
- User Involvement facilitator for Gynaecology Oncology

Eligibility

Referrals should be made for any patient with a suspected, potential or actual diagnosis of a gynaecology cancer regardless of type.

Referral Procedure

Referrals are accepted from any member of the Gynaecology wider MDT, who is involved in the care of patients with a Gynaecology Cancer, at any stage of their illness trajectory, from investigations, through diagnosis work up and beyond.

Referrals can be made by telephone, copy letter, fax or referral form. Patients and relatives needing information, help, advice and support can also contact the CNS. Referral forms can be found at all Gynaecology Out-patient Departments and in the Gynaecology Oncology section in the Children and Women’s Division section of the intranet.

Macmillan Lung Cancer Nurse Specialist

The Macmillan Lung Cancer Nurse Specialist is a member of the lung cancer multi-disciplinary team; the role is to provide information, advice and support to people affected by lung cancer.

Information could be with regards to an individuals’ condition, treatment, management of symptoms and problems of daily living.

Services Offered

The service aims to be easily accessible to patients, their families and professional carers. Patients may be seen in the medical clinic, ward or at home. The nurse;

• Give opportunities to discuss concerns in confidence.
• Provide information to enable patients to make informed choices about their care and treatment.
• Co-ordinate care so people receive help they need at the right time for them.
• Provide patients with a link to other members of the Lung Cancer Team and other professionals.

Referral Procedure
Referrals can be made directly by telephone

Macmillan Lymphoedema Specialist Nursing Team

The Macmillan Lymphoedema Specialist Nursing team is a nurse-led service which aims to facilitate the delivery of high quality, evidence-based and efficient treatment methods to patients with Primary and Secondary lymphoedema/chronic oedema.

The lymphoedema nurses provide specialist nursing advice and treatment to patients with lymphoedema and ongoing support and advice to their families and carers.

The service is based in the Macmillan Unit at CRH and covers both Calderdale and Huddersfield localities, providing out-patient clinics in the Macmillan Unit on a daily basis. Ward visits are carried out at the discretion of the team and home visits are completed where a joint care package is relevant with district nursing teams.

Services Offered

- A fully comprehensive nurse-led service offering specialist assessment and individualised, patient centred management programmes. Treatments include:
  - Initial comprehensive assessment and differential diagnosis of lymphoedema
  - Multilayered Lymphoedema Bandaging
  - Manual Lymphatic Drainage
  - Decongestive Lymphatic Therapy
  - Kinesio taping treatment
  - Sequential compression therapy
  - Ongoing maintenance management programmes
- Provision of education sessions and clinical visit opportunities to support staff
- Education of patients in self management techniques which aim to provide long term control of their condition
- Support and advice to patients and their families with ongoing monitoring of their condition

Eligibility Criteria

- Clinical responsibility lies with the patients’ GP or Hospital Consultant. Therefore, any healthcare professional requesting input from the specialist lymphoedema team must ensure that the patient has been reviewed medically to exclude any other medical cause for the swelling.
- Patients’ with a swelling which has been present for at least 12 weeks and does not reduce on elevation. This includes:
  - Patients with swelling which is secondary to Cancer or its treatment e.g. following surgery and/or radiotherapy
  - Swelling secondary to recurrent infections, trauma or associated with Chronic Venous Insufficiency
  - Primary lymphoedema resulting from insufficiency of lymphatic drainage/vessels
  - Patients with lipoedema

Referral Procedure

Referrals are accepted from GP’s, Hospital Medical Staff, Specialist Nursing teams or District Nursing teams at the agreement of the patient’s GP. Referrals should be made on the ‘Lymphoedema Service Referral Form’. Telephone referrals must be followed up with a written referral.
Completed referral forms should be sent to:

The Urology Nursing Service aims to:
- Ensure that all aspects of practice are directed to meeting the needs and interests of patients.
- Minimise waiting times for consultations and treatments.
- Develop services for patients who have urology cancer.
- Act as a source of information for patients, carers and hospital staff on urology disease and treatments.
- Develop and maintain the quality of service for urology patients in conjunction with the needs for the Trust.

The CNS is available to patients to discuss:
- Their diagnosis.
- How the diagnosis is affecting both themselves and their family’s life.
- Any investigations that the patients are due to have.
- Any treatment the patients are having.
- Information about support groups and where to go for further information.
- Resuming a normal routine.

This service is available Monday – Friday during normal office hours. An answer phone is available out of hours, any messages will be replied to within 48 hours of receipt.

**Referral Procedure**
Referrals can be made directly by telephone, letter or referral form to the CNS.

5. Cancer Support Teams

Benefit Advice

Calderdale Disabled Advice Resource Team (DART)

Calderdale DART is a specialist Disability Rights Organisation able to advise on a wide range of issues including:

- Advise on any entitlement for benefits
- Making a claim for any appropriate benefits such as Attendance Allowance; Disability Living Allowance; Carers Allowance; Workers Compensation Payments and Housing/Council Tax Benefit etc.
- **Even if a client does not qualify for benefits Calderdale DART can help with:**
  - An application for a disabled parking permit (Blue Badge) as appropriate
  - Providing RADAR keys to allow access to toilets for the disabled
  - Advise Carers of their rights, and of any entitlement that they may have to benefits
  - Referrals to other relevant organisations for help, such as for an assessment for any suitable aids and adaptations that may help clients to manage in their own home.

Calderdale DART aim to contact clients with cancer within 2 weeks of receiving a referral (but this may increase during holiday periods or busy times). An adviser may telephone a client initially, to obtain a little more information. Then, if appropriate an appointment will be offered. This will be in the Calderdale DART office if client’s can get there or in a client’s home if they find it difficult to get out. In some cases clients may not need to see the Adviser, as it can be possible to deal with some queries by telephone or letter.

Hope Centre 01484 342000 Ext. 2092
Dietetics

The aim of dietetic treatment is to optimise nutritional status using varying degrees of intervention depending upon the patient’s condition. For example, advice on maintaining or regaining weight; healthy eating guidance; food enrichment; specific advice after surgery; chemotherapy or radiotherapy; food supplements; artificial feeding; palliative care and alternative diets.

The dietitian will undertake assessment of the patient, explain the dietary treatment and its relationship to the diagnosis and treatment plan, and provide a nutritional care plan. Literature appropriate to the needs of the patient and carers will be supplied, with feedback to the referrer and other key professionals.

In-patients and carers can be seen on the hospital wards by the in-patient team or hospice (if under the care of the Specialist Macmillan Dietician), following a referral to the service.

Out-patients will be seen at one of the general dietetic sessions at an available clinic most convenient for the patient.

The Specialist Macmillan Dietitian is available for patients with head and neck, or upper gastrointestinal cancers. Patients are generally seen in a multidisciplinary clinic or one-to-one setting, with intensive follow-up as required. The Specialist Macmillan Dietician is also available to advise other healthcare professionals involved in the care of patients with other cancers.

The Community Rehabilitation Team in Calderdale is for patients with multiple rehabilitation needs. Contact the team for further information.

The Community Rehabilitation Teams were not originally funded for cancers however agreed to the following as a gap in the market:

Criteria:

- Only if patient is housebound (otherwise the Acute Dietetic Team will see the patient – potentially with hospital transport)
- Patient undergoing active treatment for cancer diagnoses (however palliative care patients to be signposted to palliative care team to advise GP of supplements)
- Not head and neck or upper GI cancer (signpost to Specialist Macmillan Dietitian)

Genetic Service

Services are available for patients with a family history of cancer or other tumours. Patients may be referred by GPs to local services, such as the breast family history clinic or colorectal services. Patients with symptoms in particular should be referred to the appropriate service at CHFT. Secondary care clinics may refer on patients considered at moderate or high risk to the Yorkshire Regional Genetics Service (YRGS) for further assessment. Alternatively, asymptomatic patients with a family history of cancer may be referred directly by GPs to YRGS.

YRGS referrals are directed to Dr Julian Adlard, YRGS, Chapel Allerton Hospital, Leeds. From here, a Family History Questionnaire is sent to the patient (unless it is clear that an appointment is indicated). This form must be completed by the patient in the allotted time period before the referral can be assessed. Following this, the patient may be offered:

A. An appointment with a Geneticist
B. An appointment with a Genetic Counsellor
C. Referral to an appropriate unit for cancer screening
D. No further appointment and informed that they have been assessed at no significant increased risk

The YRGS clinics run on average once a month at CRH and HRI. If there is a backlog, more clinics may be performed locally, or patients may be seen in Leeds.

1. Breast Cancer
Women who have been referred to the Family History/Breast clinic at either CRH or HRI will have an assessment of the family history, following the NICE guidelines (available online), and follow up plans made accordingly. Patients at moderate/high risk will be referred to YGRS for further assessment.

Referral Criteria:
A family history of any of the following:
✓ 1 first degree relative with breast cancer aged <40 at diagnosis
✓ 2 first degree, or 1 first and 1 second degree relative affected with breast or ovarian cancer on the same side of the family
✓ 3 first or second degree relatives on the same side of the family diagnosed before an average age of 60
✓ 4 relatives diagnosed at any age on the same side of the family
✓ 1 first degree relative with 2 separate primary breast cancers
✓ 1 first degree male relative with breast cancer
✓ Breast and ovarian in the same individual
✓ 1 first or second-degree relative with breast cancer plus Ashkenazi Jewish family history, or first/second degree relatives with 'unusual' tumours e.g. sarcoma, colon cancer <50, thyroid cancer, leukaemia, brain tumour, melanoma or pancreatic cancer.
✓ A known breast cancer predisposition gene (e.g. BRCA1/BRCA2) mutation identified in the family
2. Colorectal Cancer
Patients with a family history of colorectal cancer may be initially assessed in secondary care clinics at CHFT. Symptomatic patients in particular should be referred to those services. Asymptomatic patients may be alternatively referred by GPs directly to YRGS

Referral indications for persons with a family history of bowel cancer
For individuals with any of the following:
✓ 1 first degree relative with colorectal cancer diagnosed <50
✓ 2 or more first degree relatives on same side of family affected with colon cancer
✓ 3 first or second degree relatives on same side of the family with colon, endometrial, ovarian, stomach or urinary tract cancer
✓ A known familial bowel cancer condition such as familial adenomatous polyposis (FAP) or HNPCC
✓ First degree relatives of an individual with 2 separate primary bowel cancers or bowel cancer and endometrial, ovarian, stomach or urinary tract cancer

3. Other Conditions
YRGS will assess the majority of cancer/tumour referrals via the Family History Questionnaire process. Therefore, patients with family histories not meeting the above criteria but suggestive of a possible genetic tendency may still be referred for assessment. However, appointments will only be offered where it is considered from the Questionnaire that there is increased risk, or further investigation of the family history is required.

Referral process

Inpatient Occupational Therapy and Physiotherapy

Occupational Therapy helps people to overcome physical, emotional, or social problems arising from illness or disability, by concentrating not on what they are unable to do, but on what they may be able to achieve. This may involve provision of equipment, advice on areas such as practical issues and personal coping strategies.

Physiotherapy helps people maximise their independence and help to improve quality of life through exercise, advise, education and coping strategies.

The Oncology Inpatient Therapy Team is based at HRI. The Therapy team consists of Occupational therapists and Physiotherapists, who work across the week to provide a service to oncology and malignant haematology patients.

Services Offered

The general aims of the services are to aid independence and improve quality of life. These include:

- Functional assessment, treatment plans and goal setting
- Cognitive assessment
- Fatigue management
- Stress management
- Relaxation
- Liaison with family and carers
- MDT Liaison
- Rehabilitation programmes
- Equipment assessment and reviews
- Access visits
- Home visits
- Follow-up visits
- Risk assessments
- Exercise plans

Jayne Garforth Macmillan Cancer Information and Support Centre

The Information Centre provides cancer specific and support information for people affected by cancer.

The Information Centre is a complementary service to the information already being provided by the Clinical Teams. Healthcare Professionals can access the Information Centre on behalf of their patients/carers, request that the Information Centre contact any interested users and signpost users to the Information Centre.

The information stocked covers:
- Cancer
- Cancer treatments
- The side effects of treatment (e.g. hair loss, fatigue, infertility etc)
- Living with cancer (e.g. diet, exercise, travel, benefits, emotional effects etc).

Information from Macmillan Cancer Support is available at the Information Centre along with literature produced by the various cancer charities listed in the Yorkshire Cancer Network (YCN) Information Pathways which have been approved by the YCN Network Site Specific Groups (NSSGs).

People affected by cancer can be referred/signposted onto support services (e.g. benefits advice, counselling etc) from the Information Centre.

People affected by cancer can drop-into the Information Centre or access it via telephone. Service Users can pick-up the information for themselves off the shelves or discuss their information needs with the Macmillan Cancer Information Centre Manager:

**Jayne Garforth Macmillan Cancer Information Centre**

**Open:** Monday-Friday, 9.00am – 5.00pm

*Please note that the Information Centre is not manned by the Manager throughout this time*

**Referral Criteria**

1. Adults over the age of 18 years with a cancer diagnosis or malignant haematological diagnosis and a need for rehabilitation as a direct result of this diagnosis.
2. Patients need to be resident within the CHFT boundaries.
3. The patient must have a need and a desire for rehabilitation to achieve personalised goals, even in the short term.
4. Rehabilitation may include restoration of function or the management of current function to improve independence and quality of life, regardless of life expectancy.
5. The need for rehabilitation has to be complex and therefore require the intervention from either more than one discipline or a specialist clinician.
6. The patient has a need for specialist symptom management and advice around for example, anxiety, breathlessness, fatigue and pain.
7. Re-referral including self-referral by patients who have previously been involved with the Macmillan Rehabilitation Team.
Pain Management Service

Pain Service Referral System

Patient has unrelieved pain?
Complete pain service referral form

HRI
Fax referral to 2694
Phone 2101 or Bleep 414

URGENT Referral
Phone Pain Team mobile on
0755433061 for advice

Please ensure patient has analgesia prescribed as per the Trust Analgesic Ladder which can be found in the Pharmacy section of the Intranet. If prescribed analgesia is ineffective please use the referral guide.

Any patient who has had major surgery will be routinely reviewed by the Pain Team.

Referrals will be prioritised and seen as soon as possible, but this may not be the same day.

Please do not refer a patient on the day they are being discharged as we may not be able to see them.

The Pain Team work across both sites and the service is covered from Monday – Friday 9.00am- 5.00pm.

Out of hours please contact the 1st or 2nd on call Anaesthetist for advice.

Please see referral form below:

Please ensure that this referral reaches the department as early as possible. This is a very busy service which includes covering A&E, wards and clinics. Referrals will be prioritised and seen as soon as possible but, this may not be the same day.

This service is covered Monday – Friday 9am – 5pm

Please send completed forms to the Chronic Pain Clinic, Level 3, CRH (Ext 4085 or fax 4086), or Pain Service Office, Ground Floor, HRI (ext 2101 fax 2694)
Pharmacy

The pharmacy team supports the goal of improving the quality of life for patients. This is achieved by promoting safe and rational drug therapy to staff, patients, relatives and carers.

The pharmacy department offers a range of services within CRH and HRI. Services include:

**Inpatient Dispensaries**
Supply the wards and departments with their routine stock, individual supplies to patients on wards and discharge medication to patients going home or being transferred.

**Medicines Information and Clinical Pharmacy Services**
Offer advice on any aspect of drug related therapy including individual patient tailored advice. The electronic formulary and prescribing protocols can be accessed via the Trust Intranet.

**Aseptic Dispensing Units**
The units are equipped to make all cytotoxic and intravenous infusions or injections requiring dilution. They also make and can offer advice with the prescribing of TPN solutions. Radiopharmaceuticals are prepared at HRI.

**Pharmacist Counselling**
Pharmacists counsel patients on the use of their medication including correct use of inhalers and other respiratory medicines and special precautions for patients taking warfarin.

They can also help patients who have difficulty taking their medicines by supplying reminder cards, or medidose dispensing systems.

**One Stop Dispensing**
The pharmacy offers a ‘one stop’ dispensing service, which can help speed up the patient’s discharge. Patients are asked to bring in all of the medicines, which they have at home.

Every patient has their own bedside locker where their medicines are kept for their use. The pharmacy dispenses a month’s supply if required which is used on the ward, then the patient can take home on discharge.

**Ward Pharmacists**
On the wards pharmacists review all prescriptions (Monday–Friday) and give advice on drug choice, dosages, interactions and therapeutic drug monitoring.

Psychological Support

Access to appropriate psychological support services is crucial for maintaining well-being in cancer patients and assisting in maximising quality of life. In the majority of cases psychological support provision is through the Primary Care Team and Specialist Nurses.

On occasion referral for counselling or clinical psychology opinion may be appropriate.

Clinical Psychology

At present cancer services do not have access to dedicated clinical psychology sessions.

Referral Procedure
Referral into this service should be made in writing to:

<table>
<thead>
<tr>
<th>CRH</th>
<th>HRI</th>
</tr>
</thead>
<tbody>
<tr>
<td>Psychology &amp; Counselling Services</td>
<td>Clinical Psychology Services</td>
</tr>
<tr>
<td>Tel: 01422 222733</td>

</tr>
<tr>
<td>Fax: 01422 222735</td>
<td>Fax: 01484 343409</td>
</tr>
</tbody>
</table>

Alternatively if you are concerned about your patients’ please discuss this with the appropriate oncologist.

Counselling

Hospital Counselling
A counselling service is available for patients with cancer or a life-threatening condition at any stage of their pathway. Counselling sessions are provided at CRH and HRI.

Referral Procedure
Referrals will be accepted from specialists or staff working in cancer care. Referral will be made by Counselling Service Referral Forms. Referral forms are available from the Macmillan Unit reception (01422 222700). Completed referral forms should be faxed to the Macmillan unit on 01422 222701.

Address: Trafalgar Mills, Leeds Road, Huddersfield, HD2 1YY
Tel: 01484 537039
Website: www.crossrods.org.uk/hudds

Forget Me Not Children’s Hospice
The hospice care team currently provides home based care for children and young people between the ages of birth and 19 years old who have a life limiting or life threatening condition.

The hospice offers care in your home provided by a team of nurses, nursery nurses, play specialists, social workers, physiotherapists, health care workers and complimentary therapists. The hospice care team work closely with the other professionals that are involved in your child’s care to ensure the services the hospice offer are seamless and enabling them to provide the best possible care.

The hospice provides each family with a number of respite hours per week, based on individual needs, which families can use to meet their needs.

In addition to planned respite care, the hospice also provides:

- Emergency respite
- Symptom control care
- End of life care
- Bereavement support

When a child reaches the end of life stage, the hospice care team will endeavor to support the family on a daily basis with 24 hour on call support at home.

To refer your child for care, you can contact the Care Team by telephoning 01484 411040.

Address: Russell House, Fell Greave Rd, Huddersfield, HD2 1NH
Tel: 01484 411 040
Email: contact@forgetmenotchild.co.uk
Website: www.forgetmenotchild.co.uk
**Kirkwood Hospice – Drop-in Day**
This service is designed to help those living with a life-threatening illness or with the effects of treatments for those illnesses. It may also help to maintain a sense of well-being and a positive approach to living with such an illness. Relatives and carers may also use the Drop-in day.

**When:** Every Friday, 9.30am-3.30pm  
Alternate Mondays (except Bank Holidays), 2.00pm-7.30pm

**Where:** Support and Therapy Centre, Kirkwood Hospice, 21 Albany Road, Dalton, Huddersfield, HD5 9UY

**Contact:** 01484 55790  
**Website:** [www.kirkwoodhospice.co.uk](http://www.kirkwoodhospice.co.uk)

**Martin House Children’s Hospice**
Martin House Hospice cares for Children and Young People with progressive life limiting illnesses, and provides support to their families. The hospice is based in a purpose built hospice in Boston Spa, Wetherby and cares for children and young people from throughout the Yorkshire region.

There are fifteen bedrooms, nine in Martin House itself, where younger children and families stay, and six (with ensuite bathrooms) in Whitby Lodge, an adjacent building for teenagers and young people. Parents and siblings sometimes want to stay in the same bedroom, and there is an extra bed in each room. However it is also good to be close by, but in a separate room, and there are family rooms upstairs for parents and siblings.

The link below gives travel detail options to Martin House  

**Address:** Grove Road, Clifford, Boston Spa, Wetherby, LS23 6TX  
**Tel:** 01937 845045  
**Email:** admin@martinhouse.org.uk  
**Website:** [www.martinhouse.org.uk](http://www.martinhouse.org.uk)

**Overgate Hospice – Day Hospice**
Provide a range of facilities to help patients and carers adjust to the physical and psychological demands of their illness, offering social and emotional support.

**When:**  
Day Hospice – Monday Tuesday and Wednesday, 9.30am-3.00pm  
Therapy Day – Thursday and Friday, 9.30am-12.00pm and 1.00-3.30pm  
Carer’s Group – Fortnightly, Tuesday, 6.00pm-8.00 pm, available for carers of patients attending Day Hospice

**Where:** 30 Hullen Edge Rd, Elland, HX5 0EH

**Contact:** 01422 379151, info@overgatehospice.nhs.uk
Support Organisations – Regional

Cancer Support Bradford and Airedale

Tel: 01889 563191
Email: secretary.ua@classmail.co.uk
Website: www.uagbi.org
6. User Involvement

CHFT is continually monitoring the services it provides. We believe it is important that the services we provide reflect the views of those who use them and take into account their experiences.

CHFT has established a Cancer Services User Partnership Group. The purpose of the group is for patients, carers and hospital staff to work in partnership to improve the services provided and overall patient experience. The group meets four times a year on a Tuesday morning, alternating the meeting venue between CRH and HRI.

If you are interested in finding out more about the group for your own personal interest or on behalf of your patients who may want to get involved in the projects that they are working on please contact Natalie Geddes, Macmillan Cancer Information Centre Manager, on 01422 222176 or at natalie.geddes@cht.nhs.uk.
7. Amendments/Updates

Any amendments or updates concerning roles, responsibilities or contact details should be notified to:

**Natalie Geddes**  Macmillan Cancer Information Centre Manager
Address:  Macmillan Unit, Calderdale Royal Hospital, Salterhebble, Halifax, HX3 0PW
