Work is underway to build a new, multi-storey car park at Calderdale Royal Hospital. In summer 2024, the number of staff parking spaces at Calderdale Royal Hospital will be significantly reduced for a period of up to 18 months whilst construction works are undertaken. We are providing alternative parking options for colleagues to ensure you are inconvenienced as little as possible.

For more information about the new multi-storey car park at Calderdale Royal Hospital, please see the intranet or visit: future.cht.nhs.uk.

The new 800-space multi-storey car park at Calderdale Royal (pictured above and below) is due for completion in Winter 2025
