

## What happens when I phone MAC?

When phoning MAC your call will be triaged to assess the most appropriate course of treatment. This may be referral to your GP, community midwife, A&E, invitation to attend MAC or be given advice for self-treatment.

## What happens when I arrive in MAC?

On admission to MAC you will be seen by a triage midwife who will assess the reason you have attended and make a plan of what investigations you require, which practitioner is the most appropriate to see you and how urgently you need to be seen. We see patients in clinical priority order. You will then have a thorough assessment by an experienced practitioner. We aim to complete all investigations and examinations within 4 hours of admission.

## What shall I bring with me?

Maternity notes

A drink or money for refreshments – we do have a cold water dispenser

Money for car parking

Magazine, book, kindle etc.

## What else do I need to know?

Space is limited so we would ask you to just bring one person with you please. If bringing young children try to bring someone to help look after them and something to entertain them as you may be restricted during monitoring or examination – they soon get bored!

You may be asked to wait for the results of investigations, e.g. blood tests which may take up to 2 hours. This is so we can effectively plan your further care.

We are here to help – any questions please ask.
